

## MEASUREMENT GUIDE

- **Important Notes Before Start :**

1. "Measure over your usual Skydiving clothing. This means if you jump in cold weather, wear all the layers that you normally wear. Make sure you take everything out of your pockets! Also wear usual footwear that you wear for Skydiving".
2. "Have someone else take your Measurements".
3. "Be sure to use a dressmaker's tape. Ensure that the tape is flat & that you have not added any twists in the tape.
4. "The tape should not be too tight or too loose when measuring. Also do not add or subtract to the measurements to get a different fit. Please tell us but fit you would like, tight, regular or loose.
5. "Measure 3 times to be sure if you are between a measurement, round up to the higher measurement.
6. "If you are unsure of any Point of Measurement still, So please ask us!
